

Beer Man, our wicked cool Tap Truck converted from a 1969 Divco milk delivery truck, is completely refrigerated to draft beer specifications and allow the kegs to be kept cold while beer is served from the draft beer faucets. Beer Man is ideal for company functions, reunions, private parties or any gathering requiring fun bulk dispensing of beer.

We deliver and pick up the vehicle at your site, as well as prepare it for dispensing. There is a daily rate for the truck plus the cost of beer. Take your next event to the next level by reserving the Beer Man!
